

### UNDERSTANDING WHY VETERINARY

THE CHALLENGE

VISITS ARE DECREASING The pet population is growing, and pet owners continue to invest

in their pets' verall well-being. Yet, industry data shows that pets are spending less time at the veterinarian than they used to, and preventive care appears to be a low priority for pet owners. PREVENTABLE DISEASES We reviewed more **CONTINUE TO INCREASE** than 2 million online

#### To tackle this challenge, we needed to find out what we're missing. What is the disconnect

IN DOGS & CATS

position preventive care to pet owners and wat pet owners truly believe?

between how veterinarians

to blogs, forums and other social communities for more than a year to learn what pet owners say to each other, and where veterinarians may be able to help.

conversations posted

**MONTHS** 

In 2014, a follow-up survey found dog owners were comfortable with 16.9 months between visits, on average.1

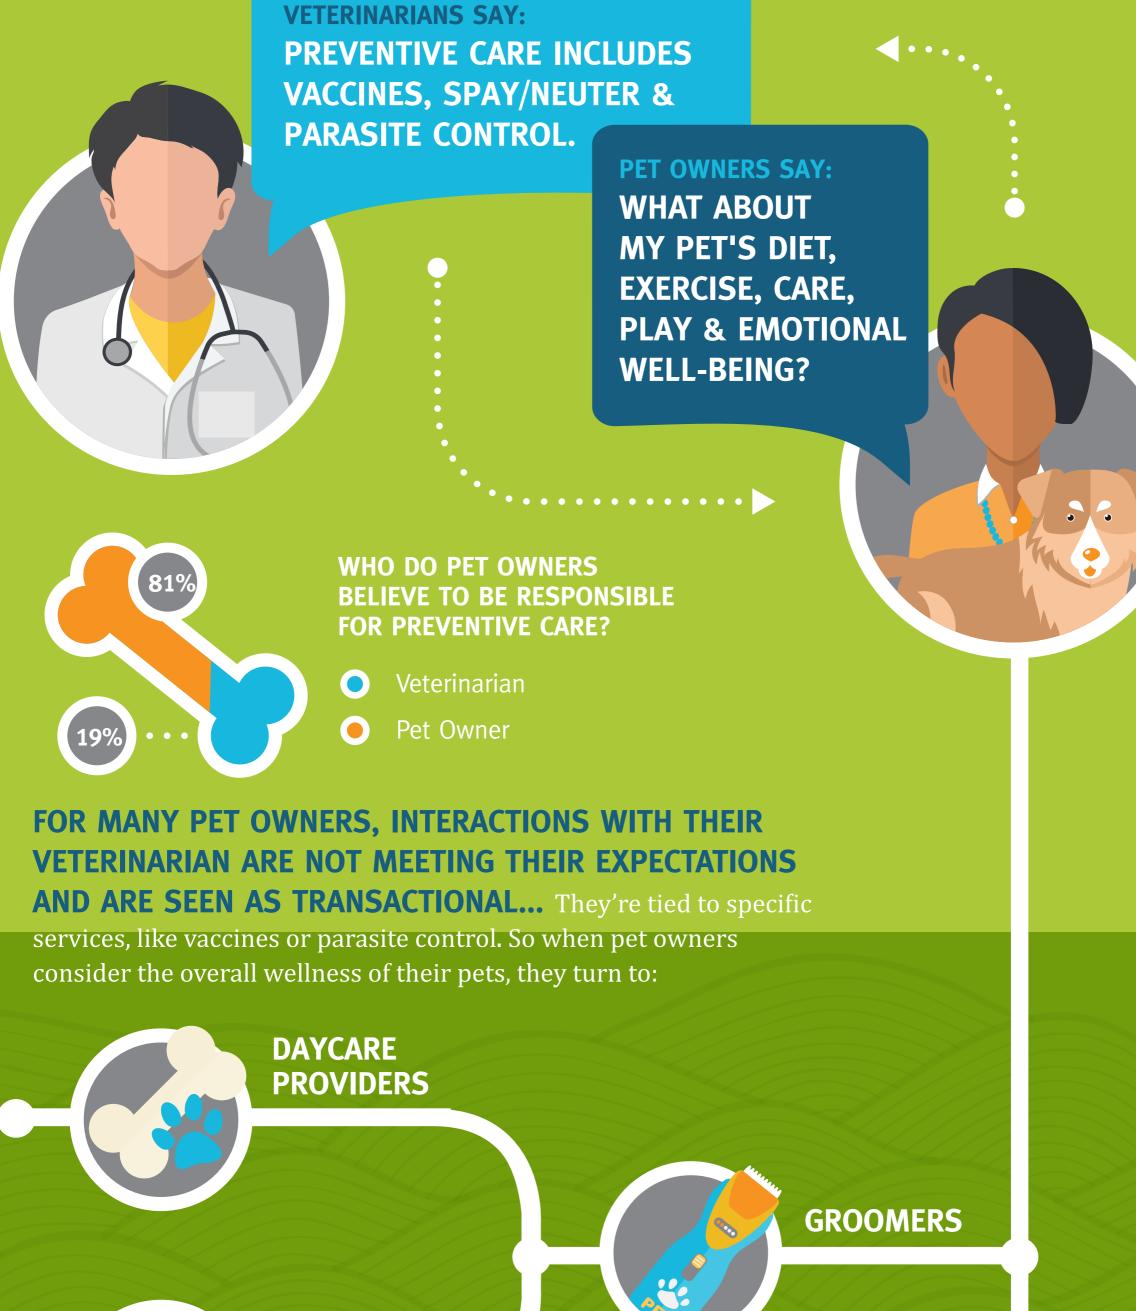

In 2011, a survey found that dog owners were comfortable

waiting 11.44.49.000thshs between visits to the veterinarian.
