

Let's keep pets and people healthy

At Banfield Pet Hospital, the health, safety, and wellbeing of our patients, our staff, and our community is our number one priority.

- If you have a cough or a fever, are feeling ill, or are quarantined due to potential COVID-19 exposure, please stay home and call your doctor.
- If your pet needs care, please call ahead so we can ensure we meet your pet's needs and advise you on next steps.
- Please maintain a minimum six-foot distance between yourself and others when you're here, and limit the number of people you bring with you.
- If you need to cough or sneeze, please do so into a cloth, tissue, or the inside of your elbow.
- Please do not shake hands, and please try to avoid all unnecessary physical contact.
- If you're a Banfield Optimum Wellness Plan® client, you can connect with a veterinarian for general pet care advice and support via Vet Chat™, anytime, on banfield.com and the Banfield app.

We're here for you, the pets you love, and the communities we live in.

Thank you for being part of the Banfield family.
