

HOW TO DRAW CAPTAIN NOODLES

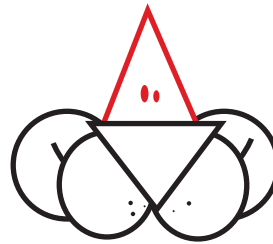

1. Draw an upside down triangle.

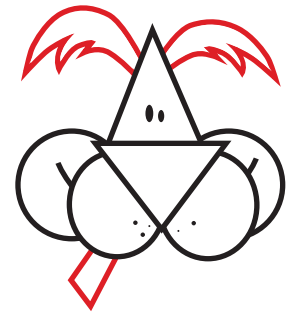

2. Draw two circles behind the triangle for cheeks.

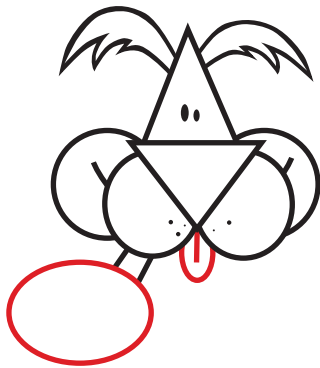

3. Draw two more circles behind the cheeks. Add little lines for a mouth.

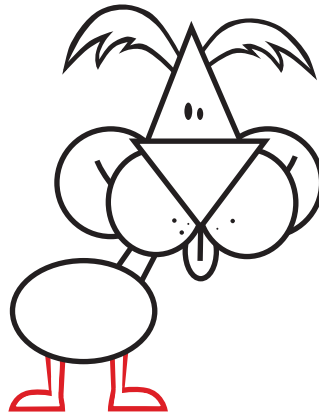

4. Draw the top of the head by making a triangle pointing up. Add two dots for eyes.

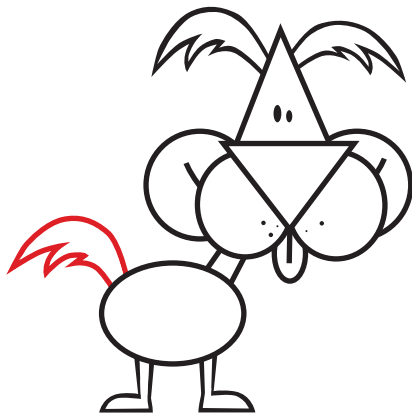

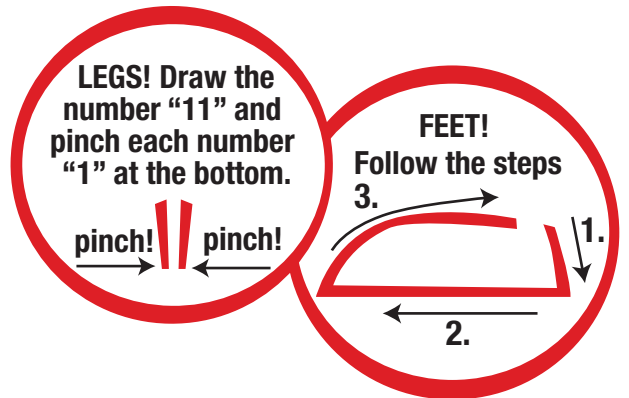

5. Draw two ears by making an upside down "U" on each side of the head. Add jagged lines under the "U" for a furry look. Make a neck with a rectangle below the head.

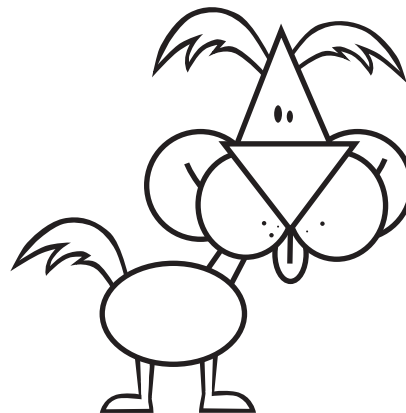

5. Draw an oval for the body. Add a letter "U" coming out of the cheeks you made.

7. Add legs and paws.

8. Add a tail! Noodle's tail looks just like his ears. An upside down "U" and jagged lines underneath to look furry.

9. When you are done this is what Noodles will look like. If your drawing doesn't look the way you want after your first try... try again. Practice will help make your drawings better!
